

The first blockchain-based marketplace for diamond trading

Register for free

The first blockchain-based marketplace for diamond investing

The Thesaurum marketplace is where users will be able to acquire both raw and processed diamonds from Thesaurum at competitive prices. The marketplace will also enable users to also request Thesaurum to resell the diamonds as the intermediary for a higher price than the purchase price against a commission, resulting in ROI for the investor.

Diamond investors can also request to have the diamonds stored by a trustee, as well as shipped to them securely. The trustee will publish regular audits of the current storage.

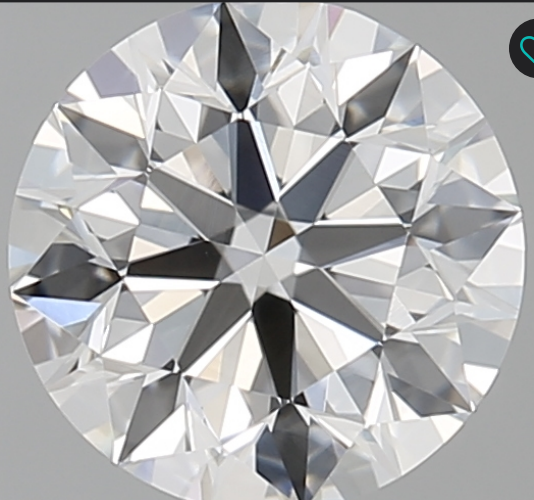

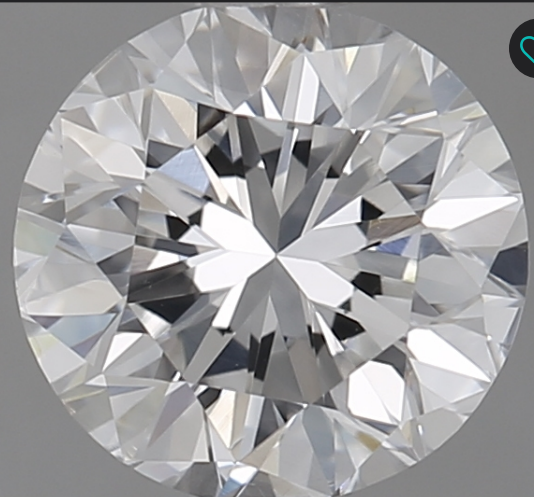

Multiple rewards through our loyalty program

The Thesaurum loyalty program rewards active and engaged users with exclusive benefits, creating a value-driven ecosystem. By participating in the program, users can unlock deals, fee reductions, and periodic token drops to enhance their overall experience.

Users will get access to limited-time offers on diamond purchases and services and receive early notifications about rare diamond listings and promotional events. They will also get reduced fees for resale commissions.

Discover the top offers from our marketplace
